

# "HOSPITALS CAN KILL YOU"

BY PAT/SALTY

YES, THEY CAN. AND THEY DO.  
IN EVERY TOWN THAT HAS A  
HOSPITAL BUILDING IN IT THERE IS  
ONE PLACE - ONE PARTICULAR BUILDING  
IN EVERY TOWN - WHERE THE MOST  
PEOPLE IN THE TOWN DIE.

IN THE HOSPITAL BUILDING.

NOT IN SOME BIG FACTORY BUILDING  
OR SOME BIG DEPARTMENT STORE  
BUILDING OR IN SOME BIG APARTMENT  
BUILDING - NO; IN ITS HOSPITAL BUILDING.  
SOME WILL SAY, "BUT OF COURSE; ITS  
BECAUSE THEY ARE FULL OF SICK PEOPLE  
AND ITS WHERE PEOPLE ARE BROUGHT  
WHEN THEY HAVE BEEN IN ACCIDENTS."

BUT THATS ONLY PART OF THE REASON.  
OF WHY HOSPITALS CAN KILL YOU.

THERES THE SPECIAL SUPER GERMS  
THAT HOSPITALS CULTIVATE, FOR ONE THING.  
THOSE HOSPITAL SUPERGERMS EXIST  
EXACTLY BECAUSE OF ALL THE DISINFECTING  
AND CLEANING THAT GOES ON IN HOSPITALS.  
WITH IT, ONLY THE STRONGEST GERMS SURVIVE.  
ALL THEIR COMPETITOR GERMS, ALL THE  
WEAKER & MORE NUMEROUS GERMS,

(2)

Get wiped out; Leaving a TOTALLY "OPEN FIELD" FOR THE HOSPITAL SUPER GERMS TO ROAM AT WILL, TO EAT AND INFECT AND KILL - AND BREED WITH OTHER SUPERGERMS TO CREATE EVEN DEADLIER COMBINATIONS.

YES - HOSPITALS CAN KILL YOU.

AND LETS NOT OVERLOOK ALL THE NATURAL COVER HOSPITALS GIVE TO HUMAN KILLERS; TO KILLER DOCTORS, KILLER NURSES, KILLER PATIENTS, KILLER JANITORS, KILLER VISITORS. NO NEED FOR HOSPITAL KILLERS TO EMPLOY A GUN OR A KNIFE - NO, SIR - AND NO NEED FOR THEM TO HAVE TO HIDE OR BURY OR GET RID OF A BODY AFTERWARDS, EITHER.

BECAUSE EVERY HOSPITAL OFFERS THEM 1001 WAYS TO "TERMINATE" A VICTIM.

OR VICTIMS; THE BIGGEST SERIAL KILLERS IN AMERICAN HISTORY, THE ONES WITH THE HIGHEST "BODY COUNTS" AND THE ONES WHO CARRIED ON THEIR SERIAL KILLINGS FOR YEARS, WORKED WHERE? IN HOSPITALS!

YES - HOSPITALS CAN KILL YOU.

~~THE~~ AND YOU CAN BET YOUR LIFE THAT THOSE BOTCHED OPERATIONS AND DEADLY HOSPITAL "SCREW UPS" YOU READ OR HEAR

(3)

ABOUT ARE OF COURSE JUST THE TIP  
OF THE ICEBERG.

JUST THE ONES THAT COME TO PUBLIC LIGHT,  
THAT END UP IN THE MEDIA BECAUSE THEY  
GET RECOGNISED, CAUGHT, AND END UP  
AS LAWSUITS, AND THOSE YOU READ + HEAR ABOUT.  
YOU HAD BETTER BELIEVE HOSPITALS CAN KILL YOU.

TAKE AN AVERAGE HOSPITAL BUILDING  
AND COMPARE IT TO THE WORSE BIG  
BUILDING IN THE BADDEST AREA OF ANY  
BIG CITY AND ASK YOURSELF; IN A  
YEARS TIME, IN WHICH OF THE TWO  
BUILDINGS DO THE MOST PEOPLE GET  
KILLED? IN ANY GIVEN YEAR?

YOU'D PROBABLY BE SURPRISED TO FIND OUT.  
I WOULD NOT BE, HOWEVER.

BECAUSE I ALREADY KNOW.

HOSPITALS CAN KILL YOU.

YOU HAVE TO BE REALLY SICK TO WANT  
TO SPEND TIME IN A HOSPITAL.

LIKE REALLY, REALLY SICK.

OR NEED THE SERVICES OF AN EMERGENCY  
ROOM - RIGHT FRIGGIN NOW -

REALLY, REALLY BAD.

OTHERWISE, STAY THE HELL AWAY!

BECAUSE HOSPITALS CAN... WELL, YOU KNOW....
