

Sex is very POPULAR ON EARTH "

BY PAT/SALTY

BIRDS DO IT. BEES DO IT.
EVEN HUMANS AND FLEAS DO IT.

NOT WITH EACH ~~OTHERS~~ OTHER, THOUGH,
BEING THAT FLEAS ARE TOO SMALL FOR
HUMANS TO HAVE SEX WITH.

EVEN IF THEY WANTED TO - ~~WANT~~
WHICH THE OVERWHELMING MAJORITY OF
HUMANS DO NOT, EVEN THE CRAZY ONES
THE BREAKDOWN OF HOW MANY FLEAS
WOULD WANT TO HAVE SEX WITH HUMANS -
IF THEY PHYSICALLY COULD - CAN NOT BE
ASSERTAINED AT THE PRESENT ~~THE~~ TIME.
PRESUMABLY IT WOULD BE JUST A MINISCULE
NUMBER, IF ANY AT ALL.

~~AND SO FLEAS~~

FLYS, ON THE OTHER HAND, TRY TO HAVE
SEX WITH HUMANS ALL THE TIME!

BUT THE HUMANS ARE TOO DUMB TO KNOW IT.
SO THE "HORNY" (SEXUALLY AROUSES) FLYS
TAKE ADVANTAGE OF THE HUMANS IGNORANCE;
THEY LOVE THE SMELL OF HUMANS, ~~AND~~
ARE ALWAYS TRYING TO LAND ON THEM, ARE
ALWAYS BUZZING AROUND GETTING HIGH AND
TURNED ON BY THE HUMAN VAPORS,
BUT HUMANS HATE THEM.

(2)

The HUMANS NEVER SEEM INTERESTED IN HUMAN/FLY INTERACTIONS.

ITS ALL ONE SIDED INTEREST - ON THE FLYS PART, HUMANS "SHOO" THEM AWAY.

SWAT THEM.

EVEN LAY OUT STICKY FLY TRAPS TO LURE THE FLYS THEY HATE TO THEIR DEATHS - EVEN ALL OF THIS DOESN'T DETER THE FLYS! IT SEEMS TO TURN THEM ON TO HUMANS EVEN MORE. THE SICK BASTARDS.

THEY ABSOLUTELY LOVE EXCRETMENT, FOR INSTANCE. "SHIT FLYS" THEY ARE KNOWN AS, BEHIND THEIR (HAIRY) BACKS.

THE HUMANS SEEM OBLIVIOUS AS TO WHY THE COMMON HOUSEFLYS ARE ALWAYS SO ATTRACTED TO THEIR HUMAN HOUSES. ITS AS IF THEY NEVER EVEN CAUGHT ON TO HOW MANY FLYS WANT TO HAVE ~~SEX~~ SEX WITH THEM AND ON THEM AND AROUND THEM. THE HUMANS PROBABLY CAN'T BEAR THE THOUGHT OF IT ALL.

THAT SHIT LOVING HAIRY CREATURES WITH A HUNDRED EYES WOULD FIND THEM ATTRACTIVE. ALSO, THE HORNY FLYS ARE INCREDIBLY FAST BY HUMAN SPEED STANDARDS.

③

By the time your average HUMAN HAND CAN SLAP AT where A HORNY FLY HAS ~~landed~~^{LANDED} ON THEIR EXPOSED ARM - IN THAT ONE (HUMAN TIME) SPLIT SECOND, THAT SUPER FAST SEX ABUSING HOUSE FLY HAS ALREADY LICKED THEIR SKIN MOISTURE, HAD A HOUSEFLY CLIMAX, CLEANED UP ITS MESS, AND FLOWN OFF BEFORE THE HUMAN HAND HAS EVEN ARRIVED! AND PROBABLY EVEN ~~had~~^{HAS} HAD TIME FOR AN AFTER SEX SMOKE, TOO. - OR A QUICK DIP IN THE NEAREST POOL OF SHIT; FLYS ARE FAST-FAST-FAST!!! HUMANS - IN COMPARISON - ARE BIG, SLOW LUMBERING ~~beasts~~ BEASTS - BIG SEX OBJECTS ~~compared~~ TO THE FLYS; THE HUMANS CAN NEVER "CATCH THEM IN THE ACT," SO TO SPEAK. ONLY SUPER SLOW MOTION HIGH SPEED CAMERAS SET UP UNDER LABORATORY CONDITIONS USING HOUSEFLYS AND HUMAN TEST SUBJECTS CAN ACTUALLY DO SO. CATCH - ON CAMERA! - THE FLYS "IN THE ACT" OF HAVING QUICK NANO SECOND SEXUAL RELATIONS WITH THE CLUELESS HUMANS.

AND such Pictures will NEVER EVER MAKE IT INTO ANY PLAYBOY MAGIZINE, EITHER. UNLESS hugh HEFNER STARTS PANDERING TO FLYS. EVEN LARRY FLYNT OF HUSTLER WOULDNT WANT TO publish such Pictures.

well, MAYBE LARRY FLYNT.

AS ~~AND~~ A special ARTICAL OR SOMETHING; "HUSTLERS" "secret sex Lives OF FLYS, REVEALED" OR some shit.

with secret shots of them IN SHIT.

GETTING THEMSELVES ALL WORKED UP BEFORE FLYING OFF TO "BOTHER" THE NEAREST HUMAN. AGAIN. AND AGAIN. AND AGAIN. LIKE FLY MOLESTERS!

IN POINT OF FACT, IF FLYS WERE BIGGER

- SAY, THE size OF CATS OR chickens -

CAN THERE REALLY be ANY DOUGHT THAT

THERE WOULD BE AT LEAST SOME

HUMANS WHO WOULD TRY TO HAVE SEX WITH THEM?

AND - UNDOUGHTEDLY - SUCCEED AT DOING SO?

ESPECIALLY IN ARKANSAS AND ALABAMA, AND SUCH?

THEN THIS INTER SPECIES SEX WOULD NOT BE SO ALL ONE SIDED - AS IT HAS SO LONG BEEN.

BUT, ALAS - AND THANKFULLY - THOSE HUMANS WILL HAVE TO GO ON SATISFYING THEMSELVES WITH CATS + chickens BECAUSE FLYS WILL REMAIN

TINY LITTLE THINGS FOREVER, NOW, AS FOR
