

File UNDER: SCIENTIFIC FACT;
"DOLPHINS BRAINS ARE LARGER THEN PEOPLES"
WRITTEN BY "PROFESSOR" PAT/SALTY

THATS A SCIENTIFIC FACT;
THE AVERAGE ADULT DOLPHINS BRAIN
IS APPROXIMATELY 25% (ONE QUARTER)
BIGGER THEN THE AVERAGE ADULT HUMANS,
FLIPPER; EINSTEINS THAT EAT RAW FISH?

WELL, THATS ONE WAY OF PUTTING IT.

AND DONT WORRY, ALL YOU AVERAGE PEOPLE
OUT THERE, IT DOESNT MEAN THAT
FISH ARE SMARTER THEN YOU ARE.

NOT AT ALL.

BEING THAT DOLPHINS, TECHNICALLY, ARE
NOT FISH (FISH HAVE GILLS, DOLPHINS DONT)
SO YOU ARE STILL SMARTER THEN FISH.

AND STILL SMARTER THEN THE DUMBER DOLPHINS,
THE NON ROCKET SCIENTIST ONES,
THE SMALLER BRAINED ONES.

FLIPPERS IDIOT KID BROTHER, IN OTHER WORDS,
SO NO NEED TO WORRY.

YOUR JOB ~~IS SAFE~~ AND POSITION ARE SAFE.
FOR NOW.

AND - ARE YOU SMART ENOUGH TO FIGURE
OUT HOW THE SCIENTISTS FOUND OUT ABOUT
THIS ~~25%~~ 25% DIFFERENCE IN SIZE
BETWEEN HUMAN AND DOLPHIN BRAINS?

(2)

Give up?

ANSWER; They weighed them,
ON SCALES.

AFTER they were DEAD.

BOTH THE HUMANS AND THE DOLPHINS,
BEING THAT THEY ALL HAD TO BE DEAD

BEFORE THEY COULD TAKE THEIR BRAINS
OUT AND PROPERLY WEIGH THEM.

BY WEIGHING ENOUGH BRAINS, THEY COULD
ADD THEM ALL UP AND GIVE EACH

AVERAGE SIZED ADULT HUMAN - AND DOLPHIN -
A MATHEMATICAL AVERAGE BRAIN WEIGHT,

AND THAT'S HOW THEY CAME TO FIND OUT
- TO PROVE, SCIENTIFICALLY - THAT THE

AVERAGE ADULT DOLPHIN'S BRAIN IS

25% LARGER THAN THE AVERAGE HUMAN
ADULTS BRAIN.

Oh, SWEET SCIENCE!

AND THE LOGICAL PRESUMPTION HAS ALWAYS
BEEN THAT - AS A RULE - THE BIGGER
THE BRAIN, THE HIGHER THE INTELLIGENCE.

GENERALLY, WITH EXCEPTIONS, NATURALLY,
THIS IS WHY MOST DINOSAURS WERE LONG

CONSIDERED TO HAVE BEEN BIG AND STUPID.
BECAUSE THE BIGGEST BEASTS THAT EVER
LIVED HAD BRAINS, LIKE, THE SIZE OF WALNUTS.

(3)

GODS

WALLNUTS, FOR ~~WALLNUTS~~ SAKE!
They were the size of Houses with
BRAINS the size of WALLNUTS!

Why, your AVERAGE Housecat ~~was~~ is
PRACTICALLY Rocket Science MATERIAL
COMPARED TO THE DINOSAURS!
AND Housecats, to be kind, are
HARDLY Rocket ~~sciences~~ Science MATERIAL.
DOGS ARE, MORE THEN CATS.

AND APES ARE, MORE THEN DOGS.

AND SO ON.

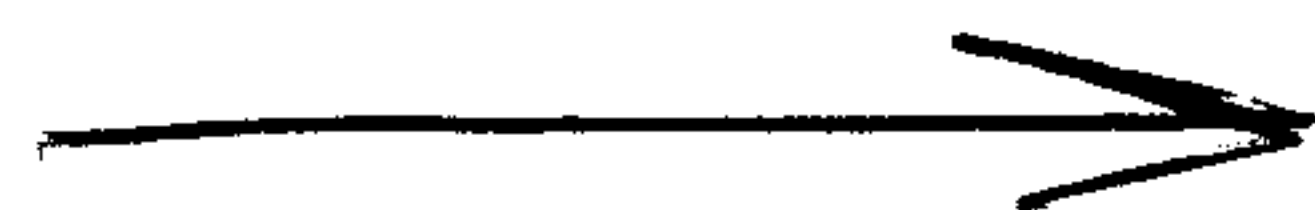

EVEN TO THE UNAVOIDABLE presumption
THAT DOLPHINS ARE, MORE THEN people.
AT LEAST INTELLIGENCE wise - ON AVERAGE.

YET ELEPHANTS ARE, MORE THEN DOLPHINS.
AND, SITTING ON THE VERY TOPPERMOST
OF THE POPPERMOST BRAIN size
MEASUREMENT HEAP - ARE WHALES!

BECAUSE THE GREAT WHALES OUT ~~there~~
THERE IN THE EARTHS OCEANS HAVE
THE LARGEST + BIGGEST BRAINS OF ALL!

NO WALLNUTS FOR THOSE BEASTS!

SO, JUDGING BY SHEER size OF BRAINS,
THE WHALES TIP ALL THE SCALES, BUNKY.
Like, BIG BODY'S AND BIG BRAINS.

(4)

Like, Moby Dick WAS SMARTER THEN
yo' ASS, Ahab.

Like, sperm whale EINSTEINS OUT THERE.
CAN YOU DIG IT?

GREAT WHITE WHALES!

YEA, BRO - They BE white!

AT LEAST, IF BRAIN SIZE IS ANY
INDICATION OF INTELLIGENCE,
WHICH IT ALWAYS HAS BEEN,

UNTIL NOW, THAT IS.

UNTIL NOW, BECAUSE THE... LITTLE

PEOPLE... OUT THERE MIGHT BE WANTIN'
TO CHANGE THE RULES - OH, ABOUT NOW.

(AS USUAL.)

ONLY I - OL' PAT/SALTY - AINT' GONNA 'LET EM'!

NO - I DON'T THINK I WILL.

SO, ALL THE LITTLE BRAINS OUT THERE
MAY ASK, HOW COME WE HUMANS RULE
THE PLANET, THEN, AND NOT THE
DOLPHINS OR WHALES? HOW DO YOU
EXPLAIN THAT, THEN?

AND MY ANSWER IS SHORT & SWEET & SIMPLE;
- THUMBS, BABY; WE HUMANS HAVE THUMBS!

DOLPHINS & WHALES (AND ELEPHANTS!) DONT.
AND WITH THUMBS, FROM THE EARLIEST STONE
AGE TOOLS ON, WE SHAPED AND BUILT AND
DOMINATED THIS EARTH; BECAUSE OF THUMBS! XXX
