

"IT'S possible, JAST NOT ECONOMICALLY FEASIBLE"
BY PAT/SALTY

DID YOU KNOW THAT IT IS NOT JAST POSSIBLE TO MANUFACTURE REAL ACTUAL GOLD RIGHT NOW, IT IS DOABLE AND THEY HAVE BEEN ABLE TO DO SO FOR YEARS? TO MANUFACTURE - NOT TO MINE BUT TO USE A MACHINE TO MANUFACTURE GOLD REAL ACTUAL GOLD?

WELL ITS TRUE - THEY CAN.

THE PROBLEM IS THAT IT COSTS THOUSANDS OF DOLLARS IN ORDER TO MANUFACTURE A TINY BIT OF GOLD ABOUT THE SIZE OF A PINHEAD.

SO ITS possible, JAST NOT ECONOMICALLY FEASIBLE.

AND YOU WOULD BE SURPRISED TO LEARN JAST HOW MANY THINGS ARE possible YET ARE NOT DONE FOR ONLY ONE REASON; THEY AREN'T ECONOMICALLY FEASIBLE.

THINGS THAT ARE TECHNICALLY possible - ALL KINDS OF THINGS - YET ARE NOT PRACTICAL FROM AN ECONOMIC OR A POLITICAL STANDPOINT.

MORE THINGS THEN YOU'VE EVER IMAGINED. THAT ARE possible - SURE - JAST NOT PRACTICAL. ANOTHER EXAMPLE →

(2)

IS HUMAN BEINGS GOING TO MARS.
IT COULD HAVE BEEN DONE YEARS AGO,
FROM A TECHNOLOGICAL STANDPOINT.
IT HAS NOT BEEN DONE ONLY BECAUSE
THE POLITICAL WILL TO SPEND AND
INVEST THE KIND OF MONEY ~~NECESSARY~~
IT WOULD HAVE TAKEN HAS BEEN LACKING.
THAT'S THE ONLY REASON IT WASN'T DONE
YEARS AGO.

AGAIN, PERFECTLY DOABLE FROM A
TECHNICAL STANDPOINT, JUST JUDGED TO
BE TOO EXPENSIVE (NOT ECONOMICALLY
FEASIBLE) POLITICALLY.
