

" CHIMPANZEES ARE SEX MANIACS! "  
BY PAT/SALTY

Yes, They ARE.

AND CAPTIVE chimps living in zoos  
AND SUCH ARE EVEN BIGGER SEX MANIACS  
THEN chimps living in the wild ARE.  
AND WHEN I WRITE THAT THEY ARE SEX  
MANIACS I MEAN IT LITERALLY, 100%.  
TWO SOMES. THREESOMES. FEARSOME FOURSOMES.  
CHIMP ORGYS. CHIMP GANGBANGS. MALE ON  
FEMALE. FEMALE ON MALE. TWO MALES ON  
ONE FEMALES. TWO FEMALES ON ONE MALE.  
FEMALE ON FEMALE. MALE ON MALE.  
CHIMP BABY MALE ON MOTHER - AND SO ON.  
FAR TOO MANY CHIMP SEXUAL VARIATIONS  
TO EVEN LIST HERE.

EVERY KNOWN EXAMPLE OF HUMAN SEXUAL  
FETISH OR PERVERSION IS ALSO OBSERVED ~~4/8~~  
BEING PRACTICED AMONG CHIMPANZEES.  
ALL OF THEM, AND THEN SOME.

TARZAN'S CHEETAH NEVER HAD IT SO GOOD.  
NO WONDER MICHELE JACKSON WANTED A CHIMP.  
NEVER A DULL MOMENT AROUND CAPTIVE CHIMPS.  
AND WHEN LAB WORKERS OR ZOO WORKERS  
ATTEMPT TO INTERVENE AND BREAKUP  
-STOP- THEIR SEXUAL MONKEY BUSINESS -  
WATCH OUT! THE CHIMPS WILL ~~BE~~ VIOLENTLY  
ATTACK THEM; WILL HURL THEIR EXCRETEMENT  
AT WHOEVER ATTEMPTS TO INTERRUPT THEIR  
CHIMP ORGYS - SO THEY ARE NOT ONLY  
SEX MANIACS BUT VIOLENT SEX MANIACS.  
LET'S JUST PUT IT THIS WAY, CHIMPANZEES  
NEVER - EVER - NEED VIAGRA, THAT'S FOR SURE.  
CAPTIVE CHIMPANZEES MAY NEED INTENSIVE  
THERAPY TREATMENTS - YES - BUT VIAGRA, NO. XXX
